

# Commitment Statement

This is to certify that Synectics Solutions is committed to measure and reduce its environmental impact, as follows:

1. Committed to achieving net zero GHG emissions by 2045 in line with a 1.5°C warming scenario and science-based targets.
2. Committed to reducing absolute Scope 1 & 2 emissions by 50% by 2030 from a 2022 baseline.
3. Dedicated to measuring operational GHG emissions across Scopes 1, 2 and 3 to monitor progress on at least an annual basis.
4. Actively engaged in building a bespoke net zero action plan to meet these targets, focusing on meaningful and realisable reductions.
5. Dedicated to transparent reporting, sharing progress on our target achievements.
